

Breakdown by Technology: The most common technologies in these investigations were telecommunications and semiconductors. But, as seen in the chart and table below, the investigations cover a wide variety of technologies.

Number of Investigations by Technology

	Total
Total	896
	349
Agricultural & Lawncare	2
Animal Products	3
Apparel/Garments	4
Automotive	20
Bio	8
Camera/Digital Imaging	4
Chemical	10
Cheney, Icemaking	1
Cheney; Safety	1
Childrens Good	1
Cigarettes and Cigarette Products	1
Commerce	7
Computer	38
Construction	3
	7

	Total
Consumer Electronics	8
Data Storage	2
Dental	3
Education	2
Electrical	21
Electronic	17
Electronic Displays	6
Elliot, Security	1
Energy	12
Environmental	1
Exercise and Recreation	14
Eyewear	2
Food and Beverage	3
Furniture	3
Games, Toys and Gaming	4
Hand Tools	1
Home Goods	14
HVAC	6
Industrial Mechanical Products	1
LCD/TV	16
Lighting	19
Manufacturing	5
Materials	3
Medical Devices and Equipment	32
Memory Products	15
Nutraceutical Products	2
Office Products	1
Oil Well Drilling - Energy	4
Optical	6
Packaging/Protective Cases	5
Pender; LCD Manual Note Taking Products	1
Personal Healthcare Products	2
Personal Items	3
Pharmaceuticals	3
Photography, Imaging and Image Processing	4 9

	Total
Printing	17
Robots	1
Security (Home / Business)	1
Security (Mechanical)	1
Semiconductor Products	62
Sensors	4
Small Consumer Items	8
Smoking	6
Sonic	1
Sporting Goods/Recreational Goods	1
Technologies Other Than Those Listed	3
Telecommunications	67
Television	12
Transportation	7
Weapons Products	2

Breakdown by Investigation Outcome: The most common outcomes in these investigations are settlements, closely followed by investigations terminated as the result of a hearing.

Number of Investigation Outcomes by Type
